CLAIMS 1-13 ARE PRESENTED FOR EXAMINATION

The response filed April 29, 2003 has been carefully considered which resulted in the following:

Claims 1, 2, 5 and 7 were examined with the elected species, i.e., a method of treating hypertension.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 2 and 5 rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the compounds allopurinol and carprofen, does not reasonably provide enablement for "an agent capable of reducing uric acid levels in a patient in need of such treatment" (claims 1 and 2) or the generic language of claim 5. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. Applicants' specification merely cites the two compounds set forth above as having the effect of treating hypertension. Claim 7, as it is presently drawn, is rejected since it is not within the scope of applicants' election of treating hypertension.

Applicants' arguments were persuasive and claim 7 would be allowed if the compounds set forth therein are recited for the elected use, treatment of hypertension.

None of the claims are allowed.
